

## Week 22 Schedule January 30<sup>th</sup> to February 3<sup>rd</sup> Earth/Space Science

Please read through this week’s “to do” list carefully. Anything **marked in Red** is a graded assignment with a set due date. Unless specified otherwise, all assignments are due at 11:59 pm Central Time on the date listed below. Dates that are **highlighted in Yellow** are connection days—these are when we have face-to-face class. If you are absent for a connection day there will be a recording of the lesson for you to watch so that you stay caught up. On non-connection days you will still have assignments to work on and things to watch; you must keep up with your work to be successful in this class!

Date	What to Watch	What to Do	What is Graded
Monday 01/30	•	<ul style="list-style-type: none"> <li>• Complete and submit the Plate Tectonics Gizmos lab from last week.</li> <li>• As a class we will go through the notes for section 18.1.</li> </ul>	•
